REQUEST FOR TENANCY APPROVAL PACKET

Tenant: _____ Proposed move-in date: _____

Landlord: _____ Tel #: _____

LL Email: _____

Dear Landlord,

Welcome to Revere Housing Authority's Rental Subsidy Program.

The Request for Tenancy Approval Packet with all required documents must be submitted by the 5th of the month, prior to lease-up, to initiate payment for the 1st of the following month.

RFTA forms must be completed by the Landlord and returned with the documents listed below:

- Proof of Ownership** (Copy of a Deed or tax bill bearing the Owners name)
- Valid photo ID**
- Voided check for Direct Deposit**
- Certificate of Occupancy/Fitness** (City where unit is located)
- Lead Paint Compliance Certificate** (Required by law if renting to a family with children under the age of 6 yrs. old)

Important next steps in the process:

1. Paperwork will be reviewed for program compliance. If the requested rent is over the program standards the Section 8 Coordinator will contact, you.
2. McCright Inspection Company will contact you directly to schedule an appointment for the unit to be inspected. (781-353-3112). Inspections must **"Pass"** prior to tenant moving into the unit.
3. Housing Assistance Payment (HAP) Contracts and Tenancy Addendums will be mailed to you. These legally binding documents must be signed and returned to RHA along with a copy of 1-year lease. When RHA has confirmed that the terms of the lease agree with the terms of the HAP Contract the tenant can move into the unit and HAP payments are generated.

Owners/Agents should screen applicants for rent payment history, eviction history, a history of damage to units, and other factors related to the family's suitability as a tenant.

IT IS IMPERATIVE AS A PARTICIPATING LANDLORD TO UNDERSTAND YOUR ROLE

The PHA's Selection of a family to participate in the housing choice voucher program is not in any way an endorsement of tenancy nor a prediction of positive family behavior. It is the owner's responsibility to screen the family's behavior or suitability for tenancy.

Such responsibility includes, but is not limited to the following:

1. The owner is responsible for screening and selection of family based on a family's tenancy history. The owner may consider a family's background regarding factors such as:
 - Payment of rent and utility bills
 - Caring for a unit/premises
 - Respecting the right of other residents to the peaceful enjoyment of their housing
 - Drug-related criminal activity or other criminal activity that is a threat to the health, safety, or property of others
 - Compliance with other essential conditions of tenancy, etc.

FURTHERMORE, as a participating landlord, you are also required to resume the following responsibilities as well:

2. Compliance with the housing Assistance Payment (HAP) contract
3. Normal landlord functions during the lease term (e.g., Maintenance, rent collection)
4. Compliance with assisted lease (agreement between landlord and tenant family)
5. Compliance with equal opportunity requirements
6. Collection of amounts due from family under the lease (e.g , tenant share of rent, Security deposit, other tenant charge for damage to the assisted unit)
7. Enforcement of the landlord/tenant lease agreement
8. Payments for the owner-supplied utilities and services
9. Modification to the units as reasonable accommodations (if applicable)

NOTICE TO OWNERS, AGENTS AND PROPERTY MANAGERS

Processing Request for Tenancy Approval (RTA)

How you will be affected and what this means to you as it pertains to the following:

Leases

The lease must be a standard form used by the owner in locality

And must;

- Comply with state and local law
- Apply generally to unassisted tenants in the same property

Certification in HAP contract

The lease must spell out which utilities and appliances are supplied by the owner and which are supplied by the family. If you are not currently using a lease for unassisted tenants, the housing Authority may offer a lease to you please let us know your current circumstances by checking off the box below that applies to you:

- Yes, I currently use a standard lease form for unassisted tenants
- No, I do not currently use a standard lease form for unassisted tenants

You replied YES, please attach a completed copy of the standard form lease you are currently using to the request for lease approval. If you replied NO, the Revere Housing Authority will supply you with a standard form lease as a courtesy.

Please note:

If you use a standard form lease, a Tenancy Addendum required by HUD will be provided by the Housing authority and must be attached to the lease. The Housing Assistance Payment contract entered between the landlord and the RHA will include the Tenancy Addendum.

ASSIGNMENT OF OWNER AGENT FORM:

You are an owner who wishes to assign an agent to act on your behalf you will be required to submit a statement to that affect which must be witness or notarized. As an alternative, attached is a standardized form which may also be used. Housing Assistance Payment contracts cannot be executed by an owner agent otherwise.

RECORD OF PROPERTY OWNERSHIP:

Copy of the recorded Deed, which corresponds with the address of the rental unit noted on the attached RTA, must be submitted with the RTA to verify ownership.

CONTRACT RENT AFFORDABILITY DETERMINATION:

The assigned case worker will upon receipt of the attached RTA conduct an affordability determination to ensure the tenants share of the rent meets program requirements and does not exceed 40% of their income. In the event the request contract rent is determined not affordable, the case worker will contact the owner/agent.

RENT REASONABLE DETERMINATION:

The RHA MUST ensure that rent charges by owner to section 8 program Participants are reasonable. This determination will be conducted by the Housing Search Specialist (HSS) and involves two comparisons. First, a comparison of the rent for the voucher unit will be compared to rents for similar unassisted units in the marketplace. Second, a comparison will be determined between the contract rent requested and the rents for similar units on the premises. The RHA CANNOT execute a Housing Assistance Contract (HAP Contract) until RHA has documented that the request rent is reasonable. In the event there are discrepancies you will be contacted by the HSS.

WHEN CAN A TENANT BE BILLED DIRECTLY FOR WATER

Tenant can be billed directly for the water ONLY if the following requirements are met: 1) Submeters are installed to measure apartments use of water 2) Low-Flow water fixtures are installed, 3) There is a written rental agreement that spells out water bill arrangements, 4) Tenancy started after Mach 16,2005, 5) Previous tenant was not forced out, 6) Landlord has filed proper certification. Tenant Lead Law Notification

What lead paint forms must owners of rental homes give to new tenants?

Before renting a home built before 1978, the property owner and the new tenant must sign two copies of this **Tenant Lead Law Notification** and **Tenant Certification Form**, and the property owner must give the tenant one of the signed copies to keep. If any of the following forms exist for the unit, tenants must also be given a copy of them: lead inspection or risk assessment report, Letter of Compliance, or Letter of Interim Control. **This form is for compliance with both Massachusetts and federal lead notification requirements.**

What is lead poisoning and who is at risk of becoming lead poisoned?

Lead poisoning is a disease. It is most dangerous for children under six years old. It can cause permanent harm to young children's brain, kidneys, nervous system and red blood cells. Even at low levels, lead in children's bodies can slow growth and cause learning and behavior problems. Young children are more easily and more seriously poisoned than others, but older children and adults can become lead poisoned too. Lead in the body of a pregnant woman can hurt her baby before birth and cause problems with the pregnancy. Adults who become lead poisoned can have problems having children, and can have high blood pressure, stomach problems, nerve problems, memory problems and muscle and joint pain.

How do children and adults become lead poisoned?

Lead is often found in paint on the inside and outside of homes built before 1978. The lead paint in these homes causes almost all lead poisoning in young children. The main way children get lead poisoning is from swallowing lead paint dust and chips. Lead is so harmful that even a small amount can poison a child. Lead paint under layers of nonleaded paint can still poison children, especially when it is disturbed, such as through normal wear and tear and home repair work.

Lead paint dust and chips in the home most often come from peeling or chipping lead painted surfaces; lead paint on moving parts of windows or on window parts that are rubbed by moving parts; lead paint on surfaces that get bumped or walked on, such as floors, porches, stairs, and woodwork; and lead paint on surfaces that stick out which a child may be able to mouth such as window sills.

Most lead poisoning is caused by children's normal behavior of putting their hands or other things in their mouths. If their hands or these objects have touched lead dust, this may add lead to their bodies. A child can also get lead from other sources, such as soil and water, but these rarely cause lead poisoning by themselves. Lead can be found in soil near old, lead-painted homes. If children play in bare, leaded soil, or eat vegetables or fruits grown in such soil, or if leaded soil is tracked into the home from outside and gets on children's hands or toys, lead may enter their bodies. Most adult lead poisoning is caused by adults breathing in or swallowing lead dust at work, or, if they live in older homes with lead paint, through home repairs.

How can you find out if someone is lead poisoned?

Most people who are lead poisoned do not have any special symptoms. The only way to find out if a child or adult is lead poisoned is to have his or her blood tested. Children in Massachusetts must be tested at least once a year from the time they are between nine months and one year old until they are four years old. Your doctor, other health care provider or Board of Health can do this. A lead poisoned child will need medical care. A home with lead paint must be delead for a lead poisoned child to get well.

What kind of homes are more likely to have lead paint?

In 1978, the United States government banned lead from house paint. Lead paint can be found in all types of homes built before 1978: single-family and multi-family; homes in cities, suburbs or the countryside; private housing or state or federal public housing. The older the home, the more likely it is to have lead paint. The older the paint, the higher its lead content is likely to be.

Can regular home repairs cause lead poisoning?

There is a danger of lead poisoning any time painted surfaces inside or outside the home are scraped for repainting, or woodwork is stripped or removed, or windows or walls are removed. This is because lead paint is found in almost all Massachusetts homes built before 1978, and so many of Massachusetts' homes are old. Special care must be taken whenever home repair work is done. No one should use power sanders, open flame torches, or heat guns to remove lead paint, since these methods create a lot of lead dust and fumes. Ask the owner of your home if a lead inspection has been done. The inspection report will tell you which surfaces have lead paint and need extra care in setting up for repair work, doing the repairs, and cleaning up afterwards. Temporarily move your family (especially children and pregnant women) out of the home while home repair work is being done and cleaned up. If this is not possible, tape up plastic sheets to completely seal off the area where the work is going on. No one should do repair work in older homes without learning about safe ways to do the work to reduce the danger of lead dust. Hundreds of cases of childhood and adult lead poisoning happen each year from home repair work.

What can you do to prevent lead poisoning?

- Talk to your child's doctor about lead.
- Have your child tested for lead at least once a year until he/she is four years old.
- Ask the owner if your home has been deleadated or call the state Childhood Lead Poisoning Prevention Program (CLPPP) at 1-800-532-9571 or www.mass.gov/dph/clppp. You can also check with your local Board of Health.
- Tell the owner if you have a new baby, or if a new child under six years old lives with you.
- If your home was deleadated, but has peeling paint, tell and write the owner. If he/she does not respond, call CLPPP or your local Board of Health.
- Make sure only safe methods are used to paint or make repairs to your home, and to clean up afterwards.
- If your home has not been deleadated, you can do some things to temporarily reduce the chances of your child becoming lead poisoned. You can clean your home regularly with paper towels and any household detergent and warm water to wipe up dust and loose paint chips. Rub hard to get rid of more lead. When you are done, put the dirty paper towels in a plastic bag and throw them out. The areas to clean most often are window wells, sills, and floors. Wash your child's hands often (especially before eating or sleeping) and wash your child's toys, bottles and pacifiers often. Make sure your child eats foods with lots of calcium and iron, and avoid foods and snacks that are high in fat. If you think your soil may have lead in it, have it tested. Use a door mat to help prevent dirt from getting into your home. Cover bare leaded dirt by planting grass or bushes, and use mats, bark mulch or other ground covers under swings and slides. Plant gardens away from old homes, or in pots using new soil. Remember, the only way to permanently lower the risk of your child getting lead poisoned is to have your home deleadated if it contains lead paint.

How do you find out where lead paint hazards may be in a home?

The only way to know for sure is to have a lead inspection or risk assessment done. The lead inspector will test the surfaces of your home and give the landlord and you a written report that tells you where there is lead in amounts that are a hazard by state law. For interim control, a temporary way to have your home made safe from lead hazards, a risk assessor does a lead inspection plus a risk assessment. During a risk assessment, the home is checked for the most serious lead hazards, which must be fixed right away. The risk assessor would give the landlord and you a written report of the areas with too much lead and the serious lead hazards. Lead inspectors and risk assessors have been trained, licensed by the Department of Public Health, and have experience using the state-approved methods for testing for lead paint. These methods are use of a sodium sulfide solution, a portable x-ray fluorescence machine or lab tests of paint samples. There is a list of licensed lead inspectors and risk assessors at www.mass.gov/cph/clppp.

In Massachusetts, what must the owner of a home built before 1978 do if a child under six years old lives there?

An owner of a home in Massachusetts built before 1978 must have the home inspected for lead if a child under six years old lives there. If lead hazards are found, the home must be deleadated or brought under interim control. Only a licensed deleader may do high-risk deleading work, such as removing lead paint or repairing chipping and peeling

lead paint. You can get a list of licensed deleaders from the state Department of Labor and Workforce Development. Deleaders are trained to use safe methods to prepare to work, do the deleading, and clean up. Either a deleader, the owner or someone who works for the owner who is not a licensed deleader can do certain other deleading and interim control work. Owners and workers must have special training to perform the deleading tasks they may do. After the work is done, the lead inspector or risk assessor checks the home. He or she may take dust samples to test for lead, to make sure the home has been properly cleaned up. If everything is fine, he or she gives the owner a Letter of Compliance or Letter of Interim Control. After getting one of these letters, the owner must take care of the home and make sure there is no peeling paint.

What is a Letter of Compliance?

It is a legal letter under state law that says either that there are no lead paint hazards or that the home has been delead. The letter is signed and dated by a licensed lead inspector.

What is a Letter of Interim Control?

It is a legal letter under state law that says work necessary to make the home temporarily safe from serious lead hazards has been done. The letter is signed and dated by a licensed risk assessor. It is good for one year, but can be renewed for another year. The owner must fully delead the home and get a Letter of Compliance before the end of the second year.

IMPORTANT NOTICE CONCERNING VIOLENCE AGAINST WOMEN ACT FOR OWNERS AND PROPERTY MANAGERS

A federal law that went into effect in 2013 protects individuals who are victims of domestic violence, dating violence, sexual assault, and stalking. The name of the law is the Violence against Women Act, or "VAWA." This notice explains your obligations under VAWA.

PROTECTIONS FOR VICTIMS

You cannot refuse to rent to an applicant solely because he or she is a victim of domestic violence, dating violence, sexual assault, or stalking.

You cannot evict a tenant who is the victim of domestic violence, dating violence, sexual assault, or stalking based on acts or threats of violence committed against the victim. Also, criminal acts directly related to the domestic violence, dating violence, sexual assault, or stalking that are caused by a household member or guest cannot be cause for evicting the victim of the abuse.

PERMISSIBLE EVICTIONS

You can evict a victim of domestic violence, dating violence, sexual assault, or stalking if you can demonstrate that there is an actual and imminent (immediate) threat to other tenants or employees at the property if the victim is not evicted. Also, you may evict a victim for serious or repeated lease violations that are not related to the domestic violence, dating violence, sexual assault, or stalking. You cannot hold a victim of domestic violence, dating violence, sexual assault, or stalking to a more demanding standard than you hold tenants who are not victims.

REMOVING THE ABUSER FROM THE HOUSEHOLD

You may bifurcate (split) the lease to evict a tenant who has committed criminal acts of violence against family members or others, while allowing the victim and other household members to stay in the unit. If you choose to remove the abuser, you may not take away the remaining tenants' rights to the unit or otherwise punish the remaining tenants. In removing the abuser from the household, you must follow federal, state, and local eviction procedures.

CERTIFICATION OF DOMESTIC VIOLENCE, DATING VIOLENCE, SEXUAL ASSAULT, OR STALKING

If a tenant asserts VAWA's protections, you can ask the tenant to certify that he or she is a victim of domestic violence, dating violence, sexual assault, or stalking. You are not required to demand official documentation and may rely upon the victim's statement alone. If you choose to request certification, you must do so in writing and give the tenant at least 14 business days to provide documentation. You are free to extend this deadline. A tenant can certify that he or she is a victim by providing any one of the following three documents:

- A completed, signed HUD-approved certification form. The most recent form is HUD- 50066. This form is available at the housing authority or online at <http://www.hud.gov/offices/adm/hudclips/forms/hud5.cfm>.
- A statement from a victim service provider, attorney, or medical professional who has helped the victim address incidents of domestic violence, dating violence, sexual assault, or stalking. The professional must state that he or she believes that the incidents of abuse are real. Both the victim and the professional must sign the statement under penalty of perjury.
- A police or court record, such as a protective order.

If the tenant fails to provide one of these documents within 14 business days, you may evict the tenant if authorized by otherwise applicable law and lease provisions.

CONFIDENTIALITY

You must keep confidential any information a tenant provides to certify that he or she is a victim of

domestic violence, dating violence, sexual assault, or stalking. The victim should inform you if the release of the information would put his or her safety at risk. You cannot enter the information into a shared database or reveal it to outside entities unless:

- The tenant provides written permission releasing the information.
- The information is required for use in an eviction proceeding, such as to evict the abuser.
- Release of the information is otherwise required by law.

VAWA AND OTHER LAWS

VAWA does not limit your obligation to honor court orders regarding access to or control of the property. This includes orders issued to protect the victim and orders dividing property among household members in cases where a family breaks up. VAWA does not replace any federal, state, or local law that provides greater protection for victims of domestic violence, dating violence, sexual assault, or stalking.

ADDITIONAL INFORMATION

If you have any questions regarding VAWA, please contact Josh Fluke a 617-425-6678.

DEFINITIONS

For purposes of determining whether a tenant may be covered by VAWA, the following list of definitions applies:

VAWA defines domestic violence to include felony or misdemeanor crimes of violence committed by any of the following:

- A current or former spouse of the victim;
- A person with whom the victim shares a child in common;
- A person who is cohabitating with or has cohabitated with the victim as a spouse;
- A person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies; or
- Any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction.

VAWA defines dating violence as violence committed by a person (1) who is or has been in a social relationship of a romantic or intimate nature with the victim AND (2) where the existence of such a relationship shall be determined based on a consideration of the following factors:

- The length of the relationship
- The type of relationship
- The frequency of interaction between the persons involved in the relationship

VAWA defines sexual assault as "any nonconsensual sexual act proscribed by federal, tribal, or state law, including when the victim lacks capacity to consent" (42 U.S.C. 13925(a)).

VAWA defines stalking as (A) (i) to follow, pursue, or repeatedly commit acts with the intent to kill, injure, harass, or intimidate another person OR (ii) to place under surveillance with the intent to kill, injure, harass, or intimidate another person AND (B) in the course of, or as a result of, such following, pursuit, surveillance, or repeatedly committed acts, to place a person in reasonable fear of the death of, or serious bodily injury to, or to cause substantial emotional harm to (i) that person, (ii) a member of the immediate family of that person, or (iii) the spouse or intimate partner of that person.
